MISSION & VISION

MISSION

To provide eco-friendly packaging materials that protect products in transit across India, while leaving no lasting impact on the environment.

VISION

To help move your items safely and securely in a fast-moving consumer world — where people and things are transported at an exponential pace across the country.

WHY PACKMEN

100%

Recycled paper used in every box we manufacture.

FAST

Quick delivery times on every order.

CUSTOM

Any size, any specification — built to order.

ZERO

Waste — all scraps and offcuts are recycled.

PRODUCT RANGE

EVERYTHING YOUR SHIPMENT NEEDS

From standard corrugated boxes to full-colour branded packaging — built to spec, delivered fast.

CORRUGATED PAPER BOXES
Long-lasting, eco-friendly and fully recyclable.

DIE-CUT CORRUGATED
Lightweight, durable, made to custom dimensions.

PRINTED CORRUGATED
Retail-ready — branding printed directly on the box.

WHITE DUPLEX BOXES
International specs — ideal for premium materials.

COLOUR PRINTED BOXES
Full-colour printing as per brand guidelines.

A SNEAK PEEK AT OUR BOXES

A glimpse of our small-format and heavy-duty big-box ranges — both plain die-cut and fully branded printed boxes. See our Boxes Catalogue for the complete range.

THE PACKMEN ADVANTAGE

- 01

QUICK DELIVERY
We optimise every step to ensure orders arrive when you need them.
- 02

CUSTOM BOXES
From dimensions to print — every box is built precisely to your specifications.
- 03

LEAN & SCALABLE
Our efficient structure scales with your volumes fast, without compromising quality.
- 04

300+ YRS EXPERIENCE
Deep collective expertise on every order — from corrugation to full-colour printing.

OUR EQUIPMENT

BUILT WITH THE BEST MACHINES

We invest in industry-leading equipment to deliver precision, speed and consistency on every order.

PRINTING

HEIDELBERG SPEEDMASTER

Heidelberg printing machines are the industry standard for high-speed, precision offset printing, widely used for commercial, packaging, and label applications. Known for their legendary German engineering, Heidelberg presses deliver unmatched colour accuracy and throughput.

PASTING

SEMI-AUTOMATIC PASTING

We use semi-automatic pasting machines for precise, consistent layer bonding — giving every box a clean, professional finish before it is cut to shape.

FORMING

SEMI-AUTOMATIC DIE CUT

Our semi-automatic die cut machines allow custom shapes and dimensions to be produced accurately, on every order, at scale.

HOW WE MAKE IT

THE MANUFACTURING PROCESS

From raw recycled paper to finished box — precision at every stage.

1

PAPER FEEDER

Recycled paper loaded

2

CORRUGATOR

Shaped into flutes

3

SHEET CUTTER

Cut to dimension

4

PASTING

Layers bonded

5

CREASE & SLOT

Box shape defined

6

STITCHING

Finished & dispatched

TRUSTED BY LEADING BRANDS

Lasting partnerships with some of India's most respected industrial and consumer companies.
